

ILLUMINATIVE AND REFLECTIVE SAFETY HORSE GARMENT

ABSTRACT OF THE DISCLOSURE

A safety turn out garment for a horse to wear, *inter alia*, during hunting season and at night, is made from highly visible (e.g., blaze orange) fabric, which may be made from mesh fabric, and has highly reflective strips affixed thereto. Such 5 garment may be made into an equine fly mask or an equine sheet/blanket, which retains the function of conventional equine fly mask or turn out sheet, yet provides better safety for the horse.
